Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's Amendment and Response to Office Action has been examined. The abstract, specification and drawings are amended. Claims 9-11, 13, 25 and 26 are amended. Claims 1-26 are pending.

1. Applicant's response, although considered persuasive, results in a new ground of rejection based on Applicant's admitted prior art submission. Additionally, Applicant's response does not include the supporting documents indicated as part of the Amendment Transmittal.

Information Disclosure Statement

2. Applicant's submission of the PSOC Designer User's Guide should be included on a Form 1449. Examiner assumes that this was Applicant's intention to record the PSOC User's Guide with the newly submitted IDS (Form 1449) instead of redundantly listing information already of record pursuant to the PTO-892 of paper No. 3.

Drawings

3. The proposed corrected drawing sheets were received on 28 August 2003. These drawings are approved.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-26 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admitted prior art, PSOC Designer: Integrated Development Environment User Guide, Version 1.11. The limitations of claims 1-26 are all included in the PSOC Designer User's Guide submitted by Applicant in response to an Examiner inquiry. Applicant has previously states that "A commercial ICE system utilizing the present invention is available from Cypress MicroSystems, Inc" for a series of microcontroller.

Remarks

6. Applicant response to the Examiner inquiry regarding public use or sale activity has resulted in the current rejection being changed from 35 U.S.C. 102 (b) to 35 U.S.C. 102(a) because of the publication date of the reference.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
